Jubatu Technologies Pvt. Ltd.

Automation made easy

- Complete E&I solutions under one roof.

- Innovative solutions ranging from Hardwired logic to IIoT.

- Premium technology at not so premium price.

Manufacturers of :-

- Control Panels
- Distribution Panels
- PCC Panels
- MCC Panels
- PMCC Panels
- APFC Panels
- ATS Panels and more

Our area of Expertise :-

- We can provide best instrumentation, technical assistance and services in any Automation requirements after studying the application carefully.

- Suppliers of **Instrumentation & Automation Products** such as PLC, HMI, Switchgears, PID Controllers, Temperature Controllers, Flow meters, SCADA Software, Servo Motor Drives, VFD, Inverters and more of all leading brands.

- Suppliers of **IoT Products** such as V-BOX, Industry 4.0 Solutions including software, hardware, cloud, application and more.

- **Control Panel** in-house design, fabrication, wiring & installation.

Jubatu Technologies Pvt. Ltd.

Why choose us ?

- Premium Quality products at much affordable prices.

- Reduced downtime and less maintenance costs.

- In-house dedicated engineering team eager to solve any problem.

- Prompt Services 24X7, 365 days.

- Huge variety of products and solutions to choose from.

- Cutting edge IoT technologies.

- More than 25 Years of experience of our promoters and mentors in the same Industry.

- Strategic partnership with ***Micon***, leading manufacturer and supplier of Instrumentation & Automation products.

Revolutionary IoT Solutions

We take pride in announcing our cutting edge futuristic range of IoT products which makes us torchbearers of Industry 4.0 solution providers.

- Vision C
- VGraphic
- Vision Web (Currently under development)
- Vision IoT (Currently under development)

Vision C

It is a beautiful, simple and yet powerful SCADA built for today's industry.

Key features :-

Data monitoring and acquisition of any parameters	Unlimited tags	Different graphical styles
Supports User defined Modbus, AIBUS and lot many protocols	Encrypted data recording	PNG and PDF conversion of history graph
One time setup	Filters and sort capability	Printing of history graph
Beautiful graphics	CSV and PDF report generation	User level control
Error detection	Upto 3 hours of online trend	Name and ID of devices for ease of recognition
Device type selection	Graphical representation of historical data	Lifetime of free updates

Jubatu Technologies Pvt. Ltd.

VGraphic – *Your grapher*

Its easy, free to use tool to generate awesome reports for your processes.
Key features:-

Generate graph out of CSV data
Scale the generated graph
Labeling and customizing graph to your need
Beautiful graphics
Filter channels

Filter data
Unlimited tags
PNG and PDF conversion of graph
Printing graph
Regular updates according to tech. trends

We hope to assist you in near future.
